7	The off-road area is the last remaining rural large subdivision on the east coast and as such is a unique "gem" in Currituck's chest. It should continue to be carefully managed to maintain it's rural single-family subdivision qualities for Currituck's future.	6/23/2016 8:03 PM
8	Those of us on well water are worried about building new residences in the 4x4 area and what it might do to our wells being they are only 15 ft deep. Also the increased traffic damaging our roads and the beach which we have to drive on a regular basis.	6/23/2016 2:45 PM
9	Develop off-road area with protection of natural resources in mind. Protect against beach erosion.	6/23/2016 11:09 AM
10	Supporting the planned new bridge from the mainland to Corolla	6/23/2016 8:48 AM
11	Limit/control visitors to off road areas; the number of visitors challenges safety	6/23/2016 8:01 AM

1	not sure what you mean by "high quality" of life to attract new business - am not in favor of financial exclusivity! Also not sure what agriculture tourism is.	7/14/2016 7:58 AM
2	Be very careful about the Currituck Government deciding what it thinks is best. The Government is too controlled by the BOC. Let each community decide what it wants and needs--Perhaps it is time to allow incorporation.	7/11/2016 11:00 AM

3	Keep commercial development completely out of the off-road area. Limit house sizes to no more than 5,000 sq. ft. and 6 bedrooms.	7/8/2016 12:46 PM
4	4x4 area is inundated with day trippers and horse tours. Passes are needed and more law enforcement at check in times on the beach strand.	6/28/2016 2:07 PM
5	Those of us that live in the 4x4 area moved here because of its natural beauty, living the quiet life, having a safe haven for the horses. Not in favor of commercial, investment, rental growth. I am against these huge home being built just to bring in more human traffic that doesn't give a hoot about our roads, beach, or quiet way of life.	6/23/2016 2:50 PM
6	Support completion of mid- county bridge	6/23/2016 8:04 AM
7	Prefer to NOT allow hunting with guns in the 4x4 area of Currituck County	6/22/2016 2:28 PM
8	Living in the 4 wheel drive area, I would not like to see any further tourism development. Large housing developed for rental has created issues with preserving the roads and a threat to the wild horses. Horse tours are excessive and have created problems with safety and invasion of personal property in the area.	6/21/2016 8:46 PM
9	Too much tourism in past few years. Curritucks beaches were VERY poorly planned and continue in this manner.	6/21/2016 6:09 PM
10	No commercial development or horse tours north of Corolla	6/21/2016 11:36 AM
11	Again, living in the off road area I am against any development that would lead to the building of hard surface roads in this area.	6/21/2016 9:55 AM
12	I wish there were comments under each question. For local economic development, I believe it is important to attract larger businesses that will sustain our economy even during economic downturns- we need to diversify so all our eggs are not in the tourism business and have sustainable businesses that can weather the long haul. In order to do that though - the affordability and availability of long term housing is going to have to be addressed.	6/17/2016 5:22 AM

5	Currituck has a chance to do great things and create a natural space that gives us a premium on our investments. Don't overbuild and mess it all up. Our Oceanfront home is already out of good quality water--hitting peatmoss. Too much building and pressure for development. There is a reason that the government has recognized the area as sensitive and fragile. Protect it and you will have big dividends.	7/11/2016 11:05 AM

16	Loss of wild horses	6/21/2016 10:56 AM
17	More development, especially in the off road area, will lead to greater environmental degradation that will make the area less attractive as a tourist destination. This is seen in every area where increased development is the prime concern.	6/21/2016 10:00 AM
18	No Business or business activity in the 4x4 area	6/21/2016 8:46 AM
19	Living in the 4x4 area I see every day the threat to our wildlife from tourists - both with their actions and with the trash they leave behind. Additionally - during May-September the beach is a mess to drive, deputies don't enforce the roadway laws with tourists (but they sure do with locals), and adding more people to an area that i already traffic challenged (not just 4x4 but all through Duck, Corolla, Southern Shores, etc) guarantees a poor experience for tourists.	6/17/2016 5:25 AM

2	building the mid-county bridge would be a gross misuse of funds for the state as well as a big mistake enviornmentally	7/14/2016 8:04 AM

3	We don't need public transit, but walking paths would be great. Focus on safety. The bridge is a big mistake. Widen 12 and use an alternative flow pattern. Keep the unique feel for tourists. The Beach doesnt need to be MYrtle. The mainland doesnt need to be Military Highway	7/11/2016 11:10 AM

11	More bridges = more development = more environmental degradation especially if they lead to more development in the off road areas.	6/21/2016 10:08 AM
12	The bridge will bring more people into an already overly congested area that does not have the road infrastructure to handle. Enforcement of the bike and pedestrian lanes would be ideal - even though they are there, they are not always used and when driving through areas with them, often see folks still running or biking in the roadway - often with little children.	6/17/2016 5:27 AM

5	it is essential to keep the 4X4 area a unique place to live and visit - gross structures such as "event" houses are not acceptable sturctures!	7/14/2016 8:32 AM
6	Prohibit commercial enterprises from invading the 4WD beaches. Allow the already existing small business enterprises to continue operation under a 'grandfather' provision.	7/8/2016 1:38 PM
7	New plans are needed without the threat of special interests on the mainland influencing the result when the ones pushing commercial and roads do not understand the impacts or area. It is unique	7/6/2016 10:25 AM
8	Havin a permit system should not restrict all development it would be a control and revenue generator for the county. We don't need to pave on the 4x4 we need to groom a take care of what we already have. We already have commercial on the 4x4, we need to control and be smart with any new commercial properties built. It does not have to be a all or nothing proposition. Smart growthis the key.	6/29/2016 1:53 PM
9	Residents want to keep this area unique- no roads and developments, wildlife preserved, permits and restrictions to traffic.	6/28/2016 2:26 PM
10	The off-road area is quickly changing. Soon there will be no horses, and one of the last of it's kind beaches will disappear forever. That would be detrimental for both the horses and residents of the 4Wd area as well as tourism. Developing this area would be penny wise and dollar foolish. In the end, the one thing that brings everyone to the area would be gone forever. Some things you cannot ever get back.	6/26/2016 10:32 PM
11	Imperative to protect this unique area where the wild horses still thrive	6/26/2016 3:32 PM
12	You need to look at the 4WD area and decide if it will be sold out like the rest of the OBX. I vacationed there for 30+ years before I bought property and have see the natural landscape dissapear 10 miles at a time. It will need to be aggressively protected because all pressures are going to be to develope it. Consider input from the people who make the investment you make a living from. The absentee owners have invested far more than thoses making the decisions. Give us some representation.	6/26/2016 12:54 PM
13	Other questions could have been a priority, but you used "and" in too many questions in this entire survey. The questions are too broad.	6/25/2016 10:19 PM
14	An overwhelming problem in the 4x4 area are day trippers. Renters are forced to share beaches crowded with day trippers who are using the same beach at no cost. Day trippers are there from morning until night - where are they going to the bathroom? There are no bathroom facilities and no garbage cans. A permit system would help pay for those crucial and hygenic needs.	6/25/2016 8:18 PM
15	Make it more private for land owners in 4WD, but allow some commercial development.	6/23/2016 11:25 AM
16	Limit the house/rental sizes and severely limit the horse tours!!!!	6/22/2016 4:06 PM
17	Save it now before we become wildwood New Jersey	6/21/2016 3:12 PM

19	No horse tours or commercial development north of Corolla	6/21/2016 11:43 AM
20	The 4 wheel drive area has been a staple of non commercialized vacations and relaxation for our family for almost 15 years. Preservation of the land, wildlife, and the rural characteristics of this area is of the utmost importance. With adding all weather access streets you would forever be changing an area that is know for its unique characteristics of 100% sand access roads, something that is nearly impossible to find any where else on the east coast. Once changes are made such as building these roads, a connecting bridge or allowing commercial business to move into the 4WD beaches you not only change the landscape to and irreversible extent but you also change the lives of the locals who call this area their home, and also the habitat of the unique and diverse species located in these neighborhoods.	6/21/2016 11:32 AM
21	Don't necessarily think restricting all development is the way to go, but a permit system for driving on the beach I may very much favor. Would need more info re: the purchasing of land for conservation.	6/21/2016 11:30 AM
22	The 4WD area is a very unique area. Once lost, there is no going back. Limit the traffic into the area.	6/21/2016 9:40 AM
23	Protect this beautiful and one of a kind area..... You can't go back once it's developed!!!!!!!	6/21/2016 9:35 AM
24	No Road. It would only benefit Friedman and commercial property. We do not want commercial property in the 4x4 area. Hotel tourists would not be happy there - they would only travel back & forth to KDH, etc. being bored with what we call "Paradise" without commercial HOTELS, etc.	6/21/2016 8:11 AM

25	<p>NO commercial development in the 4x4 please. I am surprised I don't see the same question here as below on limited the size of vacation rentals - we do not need or have the capacity for hotels thinly disguised as "single family residences" and favor limited the size of rental houses in the 4x4 area - shame on you for that not being a question under the 4x4 area but a question under Corolla. Yes, I know, we have a bit already but they are in the form of necessary services such as building and trash pick up. But honestly, from an evacuation/fire protection/safety standpoint, does anyone really believe in their heart it is a good idea to put thousands more people on this strip of sand?</p>	6/17/2016 5:46 AM

Currituck has no provisions for human waste left on beach nor for human waste thrown in private trash cans as happened in other beach communities before they banned private beach tent potties.	6/21/2016 2:11 PM
20	I'd like to see more public sound access on the 4wd sound side.	6/21/2016 12:32 PM

1	Cavora Beach needs to stay as is. The horses should be the #1 priority. Bobroads should be built. That's the attraction for us. There are not many places in this country that are wild. Let's keep it that way.	8/1/2016 8:02 AM
2	The county should grow slowly with tourism but it will not! I imagine it will be overrun with development and the 4 wheel drive area will be ruined by development which is NOT DESIRED BY OWNERS OR SEASONAL GUESTS. Traffic on the beach will become unbearable and unsafe. But MONEY WILL BE MADE and that fact will probably dictate the future of our presently beautiful area.	7/29/2016 10:24 PM
3	I would like to imagine Currituck County the same as today. There has already been too much development and encroachment on natural habitat.	7/28/2016 4:20 AM
4	leave the 4x4 area ALONE AND LEAVE THE HORSES ALONE	7/25/2016 11:50 AM
5	Overdevelopment will take away from what makes the outerbanks great. Limit growth and keep huge hotels and condos away from oceanfront. Maintain the integrity of obx. Dont allow commercial development in 4wd area. Consider issuing permits and access for tourist in 4wd area to protect horses, wildlife and beach condition. Educate public that does access 4wd about taking care of beach and horses. A guard shack and charging non residents and issuing educational materials could create revenue for 4wd area for resour es for residents and may help control access and issues ocuring on the beach. Issue a resident pass and offer a season pass option for regular visitors or renters.	7/25/2016 7:27 AM
6	Ocean Pearl Road, behind the dunes, should be improved from Corolla to Carova and beach driving should be prohibited.	7/23/2016 3:33 PM
7	A PERMIT SYSTEM TO THE OFF ROAD AREA WOULD HELP MAINTAIN THE AMBIANCE OF THE AREA. TOO MANY JOY RIDERS SPOIL THE BEACH HABITAT.	7/16/2016 5:11 PM
8	Improvement of access and egress within communities in the off road area; dislike increased vehicular traffic on beach strand	7/15/2016 6:15 AM
9	I imagine the county focused on respecting the environment and conserving land for quality living conditions for its residents, visitors and wildlife, especially the wild horses!	7/14/2016 8:32 AM
10	If you want this joint to end up looking like the New Jersey shore, then keep up the present building standards, you'll be there in another 5 to 10 years. It won't take 20.	7/8/2016 1:38 PM
11	The Board of Commissions needs to start respecting the opinions and input of the 4WD property owners instead of just sitting back and collecting our taxes.	7/8/2016 11:45 AM
12	Biggest dislike - large projects impact, particularly in off-road. Would love to see a master plan for off-road that emphasizes the natural assets, keeps it safe for people and wildlife, and develops it as a unique area rather than the same as everywhere else. Important to not " put cart before horse" by allowing development to continue with no infrastructure. There is an opportunity for a win win for the county and for the people if, instead of plowing ahead or even going ahead piecemeal, the area is developed and marketed for its uniqueness (unique to the whole east coast).	7/7/2016 1:10 PM
13	The dislike is having the income generated from the Corolla and 4x4 sections of the beach leaving the areas and receiving little or no services in return. If things don't change I see Corolla and the 4x4 sections incorporating within 20 years and the county loosing billions in occupancy taxes and other incomes generated from the beach communities	6/29/2016 1:53 PM
14	Dislike the fast growth of northern beaches- love it for its beauty and nature. Wake up, Currituck- preserve this one of a kind spot.	6/28/2016 2:26 PM
15	I think it is imperative that the 4x4 area remain undeveloped and without commercial development. There are natural resources there that will be forever changed if development is allowed.	6/28/2016 1:09 AM
16	I hope we can maintain a rural and environmentally sensitive characteristic. It is what makes the County what it is today.	6/27/2016 10:09 AM

17	Dislike losing the rural charm of the area. This uniqueness will be what sets us off from other communities in the future. We must protect and preserve our rural nature.	6/27/2016 9:12 AM
18	I would like to imagine Currituck County in 20 years like it is today. There has already been far too much development. It is becoming the Jersey Shore. Vacationers have begun to complain about more crowded beaches, traffic and the loss of the "old Outer Banks"	6/26/2016 10:32 PM
19	The appeal of the Outer Banks has been (and is advertised as) its natural beauty. The uncontrolled progression is to end up like Ocean City or Virginia Beach and destroy that. I would suggest that you retain what is left of the natural appeal and focus on something other than tourism. Has it occurred to anyone that a business friendly environment inland and a well educated work force might leave county residents a better choice than cleaning up houses or leaving? Residents with good jobs, not a few developers and rental company owners with everyone else minimum wage will make the county prosper.	6/26/2016 12:54 PM
20	I like the seclusion, NON COMMERCIAL aspect of Carova. In 20 years, I expect to see sand, horses, small house lots, for residents and visitors, LESS HORSE TOURS. LEAVE the 4x4 alone. We don't need paved roads. It is a gem. Leave it be please, so that future generations can cherish it.	6/26/2016 12:15 PM
21	Re the beach area: I imagine it to be an area where nature and outdoor activities are a priority. Restaurants and small businesses are locally owned (no chains). Local farm to table, wineries, farmers markets, etc. Also, I think it's important to weave in and celebrate the Outer Banks history and its people - a sense of place is really important. It's what sets the OBX apart.	6/25/2016 8:48 AM
22	Too much traffic on the 4-wheel beach. Underground utilities. Maintenance of beach access highway, beach should not be a highway.	6/24/2016 3:13 PM
23	Maintain rural, agricultural, and tourism planning as high priorities. The proximity of the Tidewater region will continue to put pressure on the northern areas of the mainland increasing the need to preserve the Currituck's historical and social identity.	6/23/2016 8:29 PM
24	Corolla Esp. 4X4 is over developed and cannot support the sheer number of people. Development should be limited and a permit system enforced on the 4X4.	6/23/2016 5:22 PM
25	The "Off Road" area will just be like all the other beach areas if a permit system is not put in place soon. In 10 years the Currituck beaches will not be a destination but more of the same. I cannot see why the powers to be cannot see this and make some corrections before it is too late.	6/23/2016 3:55 PM
26	What is going to happen to the horses when increased population is going to endanger them. People are destruction and stupid. I moved here to get away from all the metro chaos and in the last 10 years I have owned property here it is so much worse. It won't be to much fun when my children inherit this property.	6/23/2016 3:14 PM
27	Everyone must realize growth will come. The trick is to plan for it, not keep your head in the sand and do nothing like some people seem to think.	6/23/2016 11:25 AM
28	over crowding	6/23/2016 11:17 AM
29	My property is in Carova. I do not want the 4WD area to become over-developed and "over-civilized." I want to continue needing to drive up/down the beach to access basic retail/services in Corolla.	6/23/2016 9:08 AM
30	Continue to be a residential beach and farm community without large buildings or development; keep intact it's natural beauty	6/23/2016 8:29 AM
31	Large commercial structures "allowed" to build on land unable to sustain it naturally	6/23/2016 7:10 AM
32	Would love bridge up to Corolla. So commute to the area is quicker, but also help the importance of hurricane evacuation.	6/22/2016 5:12 PM
33	Living in the 4x4 area has fulfilled a lifelong dream of mine, but I never envisioned the devastation brought on by the crowded beaches and massive houses recently built, and those being threatened to be built. I'm concerned about the negative impact increased building will have on our water table and the loss of visibility of the star-studded night sky. I spend many afternoons picking up trash left behind by day-trippers and would like to see a permit system in place to hopefully reduce these numbers. I would also like to see more support for the horses who call this area their home and severe penalties initiated for those who threaten their existence, especially uneducated renters, day-trippers and tour vehicles. I do not look forward to seeing this pristine area "developed" and/or commercialized. If folks wanted that they would be in VA Beach or Kitty Hawk. There is a reason why people fall in love with the 4x4 area - because of its simplicity, its beauty and its natural areas. Please take drastic measures to make this area as beautiful in 20 years as it is now. There have been too many changes already. Thank you for giving residents an opportunity to voice their opinion.	6/22/2016 4:06 PM
34	Limit size and type of development in Carova in the 4x4 area.	6/21/2016 11:09 PM

35	In the 4 wheel drive area. Limit further development to ensure there are more family owned housing rather than rentals. Better enforcement of restrictions on ATVs and other recreation vehicles brought onto the beach not owned by the homeowners. Further limitation on the horse tours. Additional hiring of sheriff's to support the needs in the 4 wheel drive area in the summer months.	6/21/2016 9:04 PM
36	I hope that the beaches are not over built with these massive sized homes on top of each other. I see massive million dollar homes that are rentals on top of each other, it really disturbs me. I know it is a multi million dollar business, but at some point I think its going to be over built with these homes, and no one occupying them. It shouldnt be easy to get to paradise. The more people that are on our road ways and have easier access to them, I believe that the bigger the problem you will have. Already the sand roads take a great deal of abuse from the horse tours and residents are left trying to fill in holes in front of their homes and trim bushes to avoid blind corners. The people who are exploring dont know this and travel our roads unsafely.	6/21/2016 3:46 PM
37	4x4 beach could be the diamond in the Currituck Beach Crown. No other East Coast state has this potential. Right now it is used as a "Wild West" lawless dumping ground that each year appears more and more low end.	6/21/2016 2:11 PM
38	Since I live in the 4WD area, that is my area of concern. The tremendous amount of unregulated traffic on the beach is my biggest concern. We need some sort of permit system. The rampant development without any thought to its impact on traffic is another concern. Until the infrastructure is able to handle the traffic, there should not be any more building on the Currituck Outer Banks. This is a very fragile environment and its protection should be more important than developers being allowed to destroy it in order to make more money. Also sea level rise is going to be more and more of an issue in the coming decades and plans should be made accordingly.	6/21/2016 1:03 PM
39	The 4wd area of Currituck County is an East Coast jewel and allowing Friedman and any other commercial development other than house rental would change the beauty of the 4x4 beach forever.	6/21/2016 12:32 PM
40	Left as is, and expel the horse tours and deny any/all commercial development north of Corolla	6/21/2016 11:43 AM
41	Traffic situation is untenable and needs to be resolved. There are adequate retail and service options throughout OBX for food, entertainment, etc as is evidenced by the volume of folks that come to enjoy those amenities. Natural habitats are at risk without some clamping down on efforts to continue to spiral growth without adequate controls in place. The 4WD area is especially vulnerable to being permanently altered by enthusiastic development which may not be contained despite all common sense indicators that it should be. Would like to see traffic issues improved and development slowed and thoughtfully managed with concern for maintaining the unique and natural beauty of the area as an utmost priority.	6/21/2016 11:30 AM
42	I love the peacefulness of the 4WD area and think it would be a shame to destroy it with roads, high density development and city infrastructure (water/sewer). Traffic needs to be controlled and development limited as this is one of the few lightly developed seaside communities in the world.	6/21/2016 11:04 AM
43	Stop all commercial development in 4x4 area. Limit all other development. Make horse tours pay into a fund to protect the horses and their habitat.	6/21/2016 10:36 AM
44	My concern is for the over development of the 4WD area and its commercialization. As soon as you begin to build hard surface roads through this area you will change its unique character and begin its environmental degradation. In 20 years the area will look like Nags Head does now and I do not think anyone wants that. Limiting commercial development (e.g., hotels and large shopping centers) in this area is a necessity unless you want it to look like all the other overdeveloped beach areas in the country!	6/21/2016 10:25 AM
45	Stop the horse tours thru our neighborhoods. Our roads can not support the commercial traffic. It is now unsafe to walk on our roads. Roads we own. Something must change.	6/21/2016 9:40 AM
46	We have been coming to the area for 13 years and have seen so much change in that time. We were drawn to the 4x4 area for the beauty and natural surroundings not to mention the lack of commercialism. The amount of wild horse tours in a single day is astounding and ridiculous!!!! This area should be protected and preserved with limited building, no commercial establishments and limited wild horse tours.	6/21/2016 9:35 AM
47	Limit day traffic to the beaches Ban horse tours Enforce litter laws and laws against leaving tents on the beach overnight Require a permit to drive on the beach- make sure only 4wd vehicles can get a permit Enforce regulations against coming in contact with horses	6/21/2016 9:08 AM
48	I am only familiar with the Corolla/4WD area of the county, and I would like to keep it as it is now: no commercial development, only SMALL houses and as natural and wild as possible.	6/21/2016 8:49 AM
49	Traffic in the 4-wheel drive area should be limited by a permit system. Many people including children will be hurt or killed if something is not done soon about the traffic.	6/21/2016 8:21 AM
50	Overdevelopment, loss of natural habitat, overuse and waste of natural resources. Encourage and give access to natural areas for wildlife viewing.	6/21/2016 8:19 AM

51	Over used, over run with people who do not pay taxes - commercial property everywhere. Please stop this while you can.	6/21/2016 8:11 AM
52	Without thoughtful, responsible development especially in the 4x4 area, areas will be overburdened with tourists and all that that implies. i.e. excessive traffic, insufficient water, extreme beach congestion.	6/19/2016 9:37 AM
53	I love living in the 4x4 area - and would hope that Currituck in 20 years would be a vibrant community with affordable year around housing options, a healthy mix of small local retail and local food establishments, and a mix of economic development that does not just focus on one area but is diversified enough to sustain our economy no matter what the state of the economy is. I totally dislike the large number of horse tours that come by my home each day (up to 25) and I dislike the trash they leave and the disrespect they have for our horses and our natural environment. I love our fire department and the dedication they have to serving all residents and tourists. Please don't get me wrong, I do believe tourism has a place in the economic development of our county, I just think it needs to be more measured and well thought out - and not deplete the natural beauty and resources of our area that make us unique in the first place.	6/17/2016 5:46 AM

1	There is only so much ocean property, so take good care of it and plan wisely.	6/23/2016 6:31 PM
2	traffic congestion and utilities services are my greatest concerns for the northern 4 -wheel drive area.	6/23/2016 1:35 PM
3	The four wheel drive area is already over crowded. Driving on the beach is extremely dangerous because of the overcrowding. A permit system should be instituted limiting the amount of traffic on the beach.	6/22/2016 2:22 PM
4	Currituck County needs to focus on fostering and growing industries other than tourism.	6/21/2016 6:24 PM
5	limit horse tours, create pickleball courts in Carova, limit house sizes on single family lot.	6/21/2016 10:09 AM
